What did my school do in Spring 2020 and how does that affect my child’s IEP?

My school required attendance and participation:
- IEP services were required but not provided
- My child may be entitled to traditional compensatory services and/or recovery services

My school was closed and did not require attendance and participation:
- IEP services were not required

IEP services were required and provided (but look different):
- Discuss & create a plan:
  - What and how will data be collected
  - Possible evaluations or assessments
  - Potential need for compensatory/recovery services
  - Schedule follow-up IEP (to happen within the next 6 weeks) to discuss data collected

Request an IEP meeting
