The term “cyberbullying” raises new challenges for not only parents and school administrators but also law enforcement to protect children from this widespread epidemic. Cyberbullying is different from “schoolyard” bullying. During this interactive workshop presented by Tina Norris, participants will enter the world of technology and explore motivations, categories, warnings signs, and forms that online cyberbullying can take. Participants will learn tips and strategies to protect their children.

Tina is a skilled trainer in bullying prevention, puberty, and family engagement and brings years of experience working with children, adolescents, and families to her position as the Family Engagement Specialist at PEATC.

There is no charge to attend; however, pre-registration is required.

This workshop is being offered for informational purposes only. Information shared does not represent the opinion of or endorsement by either The Arc of Greater Prince William or Prince William County Public Schools Special Education Parent Resource Center.
