Located at The Perkiomen School in Pennsburg, PA, our innovative program integrates Michelle Garcia Winner's Social Thinking® framework to help campers develop their social thinking skills through an active, traditional camp program.
<b>Camp Sequoia - LIT Program</b> Brian Lux www.camp-sequoia.com office@camp-sequoia.com / 610-771-0111	Pennsburg, PA	June 29 - August 9	\$9,600		<b>BOYS ONLY:</b> Camp Sequoia's LIT program was created to meet the need of campers ages 16-17 who are not yet ready for a summer job and need help developing their social thinking skills, independent skills and job readiness skills. Mornings are spent working on age-appropriate independent skills such as money management, learning how to use public transportation, making plans with friends, meal planning, resume writing and more. Regular trips out of camp into the community help practice these skills experientially. LIT's also get to share in the fun of camp and participate in our daily program and weekly trips. Some LIT's are able to assist a staff member in their respective activity area.

Classrooms are designed specifically for High Functioning Autism (HFA) and Asperger's Syndrome (AS) ages 10-16 (divided according to age). These classes intensely focus on certain social deficits which are determined by consultation with the parents and/or school districts. Areas such as how to get in with a group, reading emotions, body space awareness, appropriate comments to peers and adults, body language, self control, coping skills, voice tone, etc., are covered on a DAILY basis. Targeted themes are covered WEEKLY, such as parties, telephone etiquette, restaurant etiquette, etc. Several outings occur during the summer weeks to practice what we learn! BRAAC staff utilizes video modeling, role play, documentation and practice through activities.</p>

Their son, Isaiah, was diagnosed with autism at age three. Like many children with autism, he often suffered from sensory overload—simple sensations could overwhelm him. The ocean was the one place where he seemed to find respite. A former competitive surfer, Israel hit upon an idea—with Isaiah on the front of his surfboard, and Izzy steering from the back, the two spent the day surfing together. Surfing had a profound impact on Isaiah. Israel and Danielle decided they wanted to share this unique therapy, they began to host day camps at the beach where children with autism and their families could be exposed to a completely new experience of surfing.</p>

The saline in the air and water breaks down congestion in thier airways. This congestion is what causes them to constantly go to hospitals and the need to take a number of medications on a daily basis. With salt water treatments, many CF patients see thier hospital visits cut in half, leading to a healthier and more fulfilling life filled with fun activities.
